

## San Anton School students win the Malta Junior Science Olympiad 2022

A team of students from San Anton School comprising Julian Grech, Angela Vella, and Morgan Mae Pisani Gaerty recently won the Malta Junior Science Olympiad 2022.

The teams from San Andrea School and St Catherine's High School, placed second and third respectively.

This annual event is aimed at students who are talented in STEM (Science, Technology, Engineering, and Mathematics). A total of 84 students participated in this edition. During the competition, teams comprising three students from each participating school collaborated to solve investigative problems.

This year's winning teams were presented awards sponsored by the European Commission Representation in Malta. The top team received the Malta Junior Science Olympiad trophy sponsored by the HSBC Malta Foundation.

This was the ninth edition of the competition, which is organised by the Science Centre within the Directorate for Learning and Assessment Programmes.
